

Amendments to the Specification:

Please replace the paragraph at page 2, lines 8-11 with the following amended paragraph:

On the other hand, in the production process of non-patent publication 2, it is necessary to ~~us~~ use a special fluorination agent that is industrially expensive and problematic in handling in large amount, and the reaction yield is also ordinary. Thus, it was difficult to say that the process is an industrial production process.

Please replace the subheading at page 26, lines 12 and 13 with the following amended subheading:

~~Trifluoromethanesulonylation~~ Trifluoromethanesulfonylation step of the first step and fluorination step of the second step
